Education

Diploma in Data Science

Lighthouse Labs

November 2021 - February 2022

Bachelor of Science (Honours)

Civil Engineering

University of Ibadan

SKILLS

- Programming: Python, SQL, PostgreSQL, R, MatLab
- Supervised Learning: linear and logistic regressions, decision trees, support vector machines (SVM), Naive Bayes, XGBoost, random forest
- Unsupervised Learning: k-means clustering, principal component analysis (PCA)
- Data Visualization: Matplotlib, Seaborn
- Data preparation and cleaning: Numpy, Pandas
- Tools and platform: Docker, AWS, Jupyter
- Natural language processing, sentiment analysis, topic modeling
- Deep learning and neural networks
- Recommender engines
- Online and reinforcement learning
- Time series analysis
- Graph and network analysis

PROJECTS

- Predicting flight delays using different supervised learning algorithms.
- Identifying duplicate questions on Quora.
